

The background of the image is a close-up, top-down view of a tree trunk's cross-section, showing concentric growth rings in shades of brown and tan. The texture is natural and organic. In the center, the logo for 'p fks' is displayed. It consists of three vertical orange bars of varying heights on the left, followed by the lowercase letters 'p fks' in a bold, white, sans-serif font. The 'p' is slightly larger and more prominent than the other letters.

Wood Panels

About the company

PFK-Service is a trading Holding of a Group of companies, which includes Russian manufacturers of ecological finishing and construction materials made of natural wood.

The PFK-Service trade network includes construction networks of the Russian Federation, export directions and wholesale and retail sales from the manufacturer.

Shareholding structure

Capacity

Our factories are equipped with the most advanced European and Japanese equipment, which allows us to optimize our product range in accordance with market needs. Almost all development processes are automated and have a complete closed cycle of non-waste production. The high level of training allows our engineers and managers to raise manufacturing standards constantly.

Quality Control

Quality control is applied at every stage of manufacturing. The combination of advanced tools and strictly structured technologies provides for achievement of high performance levels. The best consumables and sharpening tools, thoughtful packaging, well-organized storage system and transport logistics ensure complete safety during transportation.

Certificates

In our activities, we use an environmental management system based on international standards ISO 14001: 2015. We use the PEFC ST 2002 standards to reliably control our wood supply chain. This way we can guarantee that wood comes from certified forests. Effective management is possible due to an accurate assessment of the current environmental situation.

Manufacturing enterprises

PFK-Service LLC

since 1998

Since 1998, the company has been engaged in deep processing of wood and supplies a wide range of products made of pine, spruce, larch, oak, aspen and thermally modified timber to 100 regions of Russia, the CIS and Europe.

Output products: planed moldings, furniture boards, glued products.

production volume

84 000 m³/per year

certification

FSC Certification

GLUED PRODUCTS FROM PINE / SPRUCE

■ WOOD PANELS

High-quality, well-dried lumber without defects that are glued with environmentally safe moisture-resistant glue.

■ Specification

Thickness, mm: 18, 28, 40

Width, mm: 200, 250, 300, 400, 500, 600

Length, mm: 800, 1000, 1600, 2000, 2500, 3000

Humidity: 14%

For further details, please see attached Annex 1.

Cooperation

Cooperation with our company gives customers the following benefits:

- supply of products directly from manufacturers;
- modern manufacturing facilities of factories and highly qualified personnel;
- wide range of products that meet international requirements and standards;
- developed logistics infrastructure;
- experience with large buyers and DIY networks around the world.

A comprehensive and flexible approach to cooperation, constant analysis of market needs and optimization of the product range help the Group's companies maintain a competitive position in target markets.
